EXPERIENCE

NAIT, Edmonton — *WordPress Developer*

January 2024 - April 2024 (Internship)

- Designed and developed a fully responsive website by creating a custom theme on WordPress.

- Integrated essential plugins to add website functionality and improve user interaction and engagement.

- Followed accessibility principles to ensure compliance with WCAG standards making the site usable.

- Conducted audits to improve performance.

- Tested and debugged all the code before production.

- Implemented Git and GitHub for version control.

PROJECTS

[Atomic Improv website](#) — *WordPress, PHP, SCSS, JavaScript, HTML/CSS, MySQL*

- Developed the website with a WordPress custom theme.

- Integrated a contact form that sends emails to the client about bookings.

- Conducted research to choose a colour palette, layout and content so that it represents the Atomic Improv brand.

- Optimized the website performance to boost the SEO.

[Anthony's Landing Page](#) — *Figma*

- Leveraged Figma's variables, components and tools to design a user-centric landing page.

- Performed design sprints to identify user preferences.

- Hosted user testing testing sessions to identify user pain points and UI/UX preferences.

EDUCATION

NAIT, Edmonton — *Web Design & Development Diploma*

January 2022 - April 2024
